

14 October 2022

Dear families,

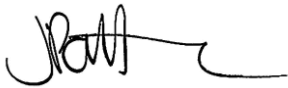

Urgent Road Resurfacing – Monday 17 October – Friday 21 October

Over recent months the road leading to the academy has deteriorated significantly and we now need to undertake urgent repair work. Due to the need to get these repairs completed before the winter sets in, we have taken the decision that this work will be completed next week. Whilst we appreciate it's not ideal to have the road resurfaced during term time we have had to reach out to suppliers that can complete these works at a reasonable cost to the academy. As such, we have had to complete this work when these contractors have availability.

It is important to note that the academy will be **open as normal** and the road leading to the academy will be **fully open** in the morning and afternoon to allow students to be dropped off and collected in the school grounds. Outside of the school pick up and drop off times (between 9am and 3pm) the contractors resurfacing the road will have one side of the road open at all times and will operate traffic management systems.

Thank you in advance for your support.

Yours faithfully

Jason Patterson

Principal
